Subject: Re: Release loads

These are Medcare, please make sure only Medcare is being loaded, and send pictures before loading.

 look back at the emails, I copied it here,

3 containers from JNS

CBHU8904290
TGBU8842994
CSNU7178458

1 container from MM2020

BEAU4566776

And 2 containers from Prestige

MATU2709520

TCLU8010739

These above containers are from where we took the goods for 5 loads. 4 loads were picked up already, now this will be the 5th load, so you should have the quantities as below from previous email

Actually, I also want you to work on the size breakdown.

According to the packing list, these containers should have as below.

	Small	*Medium*	*Large*	*Ex large*
JNS	300	700	1,700	300
JNS	300	700	1,700	300
JNS	300	700	1,700	300
MM2020	500	400	1,900	200
PS		1,200	1,200	600
PS		1,050	1,750	200
	1,400	*4,750*	*9,950*	*1,900*

We need only as below

Small 1,400

Medium 4,750

Large 6,750

Ex Large 1,700

Hi,

You can release a load for Rock Fintek as below

140 small

1030 medium

1420 large

410 ex large

Once this is out, please confirm what is the balance of the 6 containers prepared last week

Good morning David and Jimmy,

Last week Rock Fintek picked up 2 containers of the below.

Today they are picking up another 2 containers, you can go ahead and release it to them.

Hi,

I will try to make it the easiest possible.

The following container number loads we are selling to a customer of ours which will come down to inspect and pick up. But only after my authorization they are able to pick up.

Now the goods are currently not assigned to me, they are under JNS and Prestige Sales. But, I am having them release it to me, so I can sell it further.

3 containers from JNS

CBHU8904290
TGBU8842994
CSNU7178458

1 container from MM2020

BEAU4566776

And 2 containers from Prestige

MATU2709520

TCLU8010739

Once all is released and ready to load on trucks, please make sure that the JNS goods are the ones accessible to inspect, and they are the ones loaded on the track last.

On every load there should be some JNS goods mixed in, so you should have what to put last on the truck.

In other words, we want them rather to see those goods if they inspect.
